Xiaohong Yin, Visual design of CMS:

This is the interface for focal use case arrangeManagerAppointment. This will allow the RegularSecretary to add, edit and delete the appointment from manager’s calendar.
1) A menu bar composed of different menus related.
2) A tool bar composed of icons.
3) 2 text boxes allow the user to specify the time and enter/edit the topic of the appointment.
4) A list show will list all the appointment the manager has with the time and topic.
5) There are 3 buttons add/edit/delete. They will allow the Secretary to add, edit and delete the appointment.
